

Park Features

La Jolla Valley Natural Preserve - Point Mugu State Park
 9000 West Pacific Coast Highway, Malibu, California, 90265

Point Mugu State Park, located in the Santa Monica Mountains, features five miles of ocean shoreline with rocky bluffs, sandy beaches and sand dunes, rugged hills and uplands, two major river canyons, wide grassy valleys dotted with sycamores, oaks, and a few native walnuts. There are more than 70 miles of hiking trails. The 13,000-acre park includes the jagged pinnacles of the Boney Mountains State Wilderness Area. In 1966, La Jolla Valley was acquired by the State of California as part of Point Mugu State Park. To encourage native grassland, La Jolla Valley Natural Preserve was established in 1972.

Directions: The beach is 15 miles south of Oxnard on Pacific Coast Highway.
